We're always looking at new ways to save our clients money, so get in touch if the savings you're after aren't listed.

# Save on Energy

Energy management offers huge potential to reduce a core operational cost for many businesses.

In fact our clients save £4000 on average!

Our team have years of experience dealing in the energy sector and equipped with our supplier relationships will find you the most suitable Electricity and Gas tariffs for your business.

At, It's The Money Guy, we take our environmental responsibility seriously, which is why we offer renewable energy sourcing to help our clients carbon footprint as part of our sustainability pledge.

As part of our efforts to help our clients reduce their carbon footprint and save money we have partnered with various energy efficiency companies who offer excellent products to help reduce consumption.

Still in a contract? Don't worry! We have the ability to review your costs 12 months before it's even due to renew.

# Save on Merchant Services

It's The Money Guy is proud to offer excellent merchant services solutions for all electronic payment needs.

Working with our partners, we are able to provide; Face-to-Face, Over the phone, on the road and e-commerce payment solutions.

We only use the latest and most reliable terminals from Pax. The world leading seamless payment provider.

All our terminals come with contactless capabilities as standard, along with a SIM card, ensuring your customer can pay, regardless of where they are.

We will also give you a dashboard so you can keep up to date with what's going in and what's coming out of your business.

Our rates are low, really low, get in contact to find out how much we can save your business, to do the same as what you are already doing!

# Save on Telecoms

We offer a wide range of telecommunication solutions to our clients.

Our outstanding partners include a multi-award winning company who offer the latest WIFI technology and offer fibre speeds of up to 82 Mbps.

IT'S THE MONEY GUY are now proud to offer mobile telecommunication solutions to our clients with excellent deals on all of the latest mobile phones and tablets packages.

We are also delighted to introduce our new VOIP solutions taking your businesses fixed telecommunications to the next level.

On average our clients save 35% per year using our recommended telecommunications providers.

At IT'S THE MONEY GUY we have an exclusive deal with our telecommunications partners which is why we can provide a high standard of service at such a low cost.

# Save on Insurance

IT'S THE MONEY GUY has partnered with a leading UK insurance broker with over 50 years' experience in the industry, to bring our clients efficient and affordable insurance cover to meet all of their business needs.

Insurance for many years has been an unnecessarily complicated industry which has led to inflated prices as brokers take advantage of consumers lack of knowledge of the industry and the legal necessity of insurance.

Your Account Managers feedback the insurance cover you currently have to our partner insurance broker. Our broker will then supply a Like-For-Like quote based on your current policy and will offer advice on areas where you may be able to reduce your insurance premiums.

All of the policies our partner provides are bespoke to our clients' needs, ensuring that all of their cover needs are met and are not paying for unnecessary cover.

# Save on Waste Disposal

IT'S THE MONEY GUY is partnered with a national waste broker who allow us to offer an outstanding level of service and industry expertise.

We will advise you as to the appropriate container needed for your establishment and type of business you are operating.

Depending on the results of our survey, we can provide you with savings from 5% up to and possibly in excess of 35% of your current waste disposal costs.

You will receive scheduled waste pick-ups and the highest quality of service-operating provided from our partner and they will take care of all price negotiations, pick-up scheduling, and invoicing so all of your waste disposal needs are taken care of on your behalf.

# Save on Online Ordering and Table Booking Systems

We believe that restaurant, takeaways and fast food outlets should pay LESS in order to acquire customers. 3<sup>rd</sup> Party aggregators are taking a huge cut of their profits, just so the businesses can see to their own customers!

We want to not only cut costs for business owners but we will provide them with information, so they can communicate, to their own customers, when they need or want too.

Our leading partners will provide, tablets, receipt printers (which integrate with other 3<sup>rd</sup> party aggregators), leaflets, promo vids, website, set up menus, payment accounts and much more... all whilst saving your business thousands!

# Save on Water

The UK water market has been deregulated, allowing customers to choose who their water supplier is for their business, similar to how you choose your gas and electricity supplier. We cater for our customers' water needs no matter the site of your business, with a range of fixed and flexible contract options so you can manage your business water however you choose.

We have a range of services to help you manage your water and wastewater including:

- Automatic Meter Reading
- Flexible Payment Methods
- Online Account Management
- Water Efficiency
- Leak Detection Services
- Single Site and Consolidated Billing

Our water experts have years of experience in helping businesses drive down water use and lower their utility bills. We handle the full process, including procurement, tendering, negotiating and liaising with you and the supplier to ensure a smooth changeover which could save you up to 20% on your bill. Switching to a cheaper water supplier has never been easier.
